June 9, 2000

Sir:

Pursuant to M.P.E.P. §609 and 37 C.F.R. §§1.56, 1.97-1.99, applicants herewith submit form PTO-1449 which lists references cited during the prosecution of the corresponding Finnish priority application and in the International Search Report. A copy of each of the references is submitted herewith.

English language translations of DE 3210320 and DE 2140776 are not available at this time. However, an English-language abstract of each of these references is submitted herewith. It is respectfully submitted that the relevance of each of these references can be readily understood by referring to the drawings of the patent and corresponding English-language abstract provided.

This submission does not represent that a search has been made or that no better art exists. While the term "references" is used in citing the publications called to the Examiner's attention herein, applicants do not make any admission that each or all of them are "prior art" references within the meaning of the statutory and case law.

Applicants reserve the right to contend, where appropriate, that a reference asserted against any claim of the present application is not prior art under the facts and the law.

Applicants also reserve the right to present appropriate arguments and/or evidence to establish patentability over the references, should one or more of the references be applied against the claims of the present application.

Applicants request that the Examiner independently determine those items which the Examiner would consider the most pertinent of all the references cited herein.

It is respectfully requested that the references be considered and made of record.

Respectfully submitted,

STEINBERG & RASKIN, P.C.
